

Pocket-Hole Jig 7pce

TW7PHJ

The TW7PHJ Pocket-Hole Jig is a fast and simple solution for creating strong joints in wood at both the home workshop and on the building site. Featuring an on-board clamp, the Jig can be set precisely to the required material depth for quick, dual-drilling action. A magnetic vacuum port easily attaches to the jig for effective dust and shavings removal when attached to an extraction system. Kit includes the pocket-hole jig, step drill bit, depth collar, screws, plugs, square drive bit, bench fixings and instructions.

Technical Specification

Product Height	95mm
