

T12 Drill Driver 12V

T12DD

The Triton T12DD Drill Driver features a high-performance compact, precision motor and precision metal gearing for long life, even when used at high speed and torque. Featuring a quick-release removable 10mm (3/8") keyless chuck and concealed 1/4" magnetic bit holder, the T12DD is ideal for switching between screwdriving and drilling applications instantly. The T12DD delivers 22Nm of torque, 2 gears and a 17+1 torque selector for setting the screw depth for a wide selection of screws and materials. A built-in LED worklight provides clear visibility in confined areas and rubber over-moulded grips reduce vibration and fatigue. Battery runtime is maximised with the intelligent 1-hour charger, and the battery reaches an 80% charge level after 30 minutes. A range of safety features protects the batteries, charger and the tool. Includes 2 x 1.5Ah battery packs fitted with high performance Li-Ion cells, and is supplied with a soft case.
