

# T12 Impact Driver 12V

## T12ID

The Triton T12ID features a compact high-performance motor and precision metal gearing for long life, even when used at high speed and torque. Delivering up to 95Nm of torque at up to 2400rpm with 3000 impacts per minute, the T12ID is fitted with a quick-release 1/4" hex bit holder for compatibility with standard hex screwdriver bits and adapters for sockets and other fasteners. A built-in LED worklight provides clear visibility in confined areas, and rubber over-moulded grips reduce vibration and fatigue. Battery runtime is maximised with the intelligent 1-hour charger, and the battery reaches an 80% charge level after 30 minutes. A range of safety features protects the batteries, charger and the tool. Includes 2 x 1.5Ah battery packs fitted with high-performance Li-Ion cells, and is supplied with a soft case.
