

T12 Oscillating Multi-Tool 12V

T12OT

The T12 Oscillating Multi-Tool features a compact, precision motor for superior performance and long life. Precision metal gearing and blade mounting ensures superior durability, and variable oscillating speed from 6000 to 16,000opm with 6 graduations allows precise control of cutting, sanding, grinding, polishing and scraping tasks. Optimised for easy handling, the compact design allows operation in confined spaces, and the rubber over-moulded grip reduces vibration and fatigue for repetitive work. The universal accessory mounting allows a wide range of blades and accessories to be fitted and the bolt-secured mounting ensures accessories are securely locked in place. The intelligent 1-hour charger maximises battery runtime and reaches an 80% charge level after 30 minutes. A range of safety features protects the batteries, charger and the tool. Includes 2 x 1.5Ah battery packs fitted with high performance Li-Ion cells, and is supplied with a soft case.
