

1500W Triple Blade Planer 180mm

TPL180

The TPL180 Triple Blade Power Planer features a huge 180mm width for heavy duty planing of the toughest wood surfaces. The powerful 1500W motor packs twice the power of conventional planers, resulting in precise material removal and a superior finish. The revolutionary 3-blade drum delivers a massive 45,000 cuts-per-minute, improving balance, reducing vibration and blade wear, increasing the speed of cut, and producing a smoother finish. A low centre of gravity design means this large, powerful machine is easy to control, whether on wide or narrow planing surface areas, and the dust extraction port easily connects to a dust extraction system for a cleaner, safer, working environment.

- Powerful 1500W motor for heavy duty planing of hard woods
- 180mm / 7" planing width for rapid material removal in a single pass
- Revolutionary 3-blade drum design provides a superior cutting action and smoother finish
- 10-Position depth control dial for precise material removal
- Magnesium alloy for superior strength and durability
- Adjustable bail handle provides greater support and control of the tool
- Power-on neon indicates a live power connection
