

1400W Dual Mode Precision Plunge Router

MOF001

Developed from the multi-award winning TRA001, the MOF001 has won many prestigious awards around the globe since its release. Quiet, easy to control and simple to adjust, this compact machine is ideal for those looking for a router equally suited for table-mounted and hand-held use. Soft start allows close control during hand-held use, with even greater control available by fitting the multi-function fence, which is ideal for circle cutting. Variable speed ensures the router will handle a wide variety of bits for exact shaping of material. For table mounting, quick-fit pins are located in the base, allowing rapid fitment to the mounting plate, so the MOF001 is completely compatible with the RTA300 Router Table.

- Multi-award winning router with compact and powerful 1400W / 2-1/4hp motor
- Single switch from plunge to fixed-base router with rack and pinion height adjustment
- 8,000 - 21,000rpm electronic speed maintenance under load
- Automatic spindle lock for single wrench bit changes
- 3 -stage turret with direct reading scales for precise pre-set cut depths
- Soft start and variable speed provides the perfect speed for all cutter types
- Micro winder enables continuous fine depth adjustment
