

# 1400W Track Saw Kit 185mm 4pce

## TTS185KIT

The Triton Plunge Track Saw is a highly versatile, feature-packed tool with easy mode selection, fast set-up and advanced safety features. When fitted to a track, the track saw delivers long, straight cuts, and the flat design of the blade housing enables the saw to work right up to the edge of the workpiece – ideal for trimming doors and cutting hardwood flooring. The mode selector allows quick change between free plunge, scribe or blade change, and cutting width indicators show the exact point the blade plunges into the workpiece. Blade changing is safe and easy. The power switch locks out during the blade-changing process, and the blade is easily accessed through the blade guard without having to remove the cover. For straight, clean, accurate cuts through any type of wood, Triton's TTS185KIT Plunge Track Saw Kit delivers a professional result every time.

- Precise plunge saw for straight and bevel cutting
- Powerful 1400W motor with variable speed, soft start, overload protection and constant speed electronics
- Close cutting only 15mm away from wall
- Dual front and rear bevel locks for improved stability
- Free plunge, scribe and blade change modes
- Dual alignment cams for fine-tuning the saw base with the track
- Anti-kickback function for improved safety
- Mode selector allows quick change between free plunge, scribe and blade change modes
