

TWX7 910W Project Saw 127mm

TWX7PS001

The TWX7 builds on the legacy of previous Triton Workcentres, with their reputation for precision, ease of use and versatility. Using the latest advanced materials technology and a new fast-change modular approach, this new system is ideal for the workshop enthusiast as well as the on-site carpentry professional. Lightweight and robust, extruded aluminium sections support an innovative low-friction work surface and clamping table module. Dual extruded T-rails, for attaching accessories, run the full length of the table. The TWX7PS001 Project Saw is a professional solution for precision rip and cross cutting and trimming of hard and soft wood as well as laminate flooring, skirting and loft boards. The included protractor means you can easily achieve perfect angled cuts. With a fully enclosed blade and excellent dust extraction this is the ideal table saw for smaller projects.

- Dual mode, fixed and moving saw head for fast rip cuts and precise hand-controlled cutting
- Steel double bar mounted saw head and cast aluminium table base provides rigidity and removes play as the saw head moves
- Folds down easily and compactly for convenient transportation and storage, making it suitable for the smallest of workshops
- Saw head dust extractor connector for easy connection to workshop vacuums ensuring a smooth cut, clean workpiece and increased safety
- Compact 127mm (5") blade with 14 tungsten-tipped hardened teeth
