

# TWX7 Router Table Module

## TWX7RT001

The router table module for the TWX7 Workcentre has a micro dot laminate surface, which produces minimal friction on the workpiece. " This allows it to move freely against the integral fence, and when working in freehand mode. Accuracy is assured with cruciform depth-adjustable extending face plates and micro adjusters, and safety is enhanced with the provision of both vertical and horizontal featherboards (supplied). With a Triton Router fitted, precise adjustment is achieved with a through-the-table height winder. Close-fitting clear guards protect the operator. The guard dust extraction point is positioned close to the cutter for maximum efficiency, working in combination with the router's own dust extraction connector under the work surface for dual extraction. From simple edge-planing to robust panel-raising, this expert level mobile table is equally at home in the workshop or on site.

- Microdot surface on table & fence for frictionless handling of workpiece
- Adjustable fence with micro-adjusters for precise routing
- Cruciform spacers in the fence for precise edge-planing adjustments
- Integral gauges on the table enables quick and accurate adjustments to the fence
- Removable fence and guide pin allow use of full table surface when required
- Vertical and horizontal featherboards allow safer control of workpiece
- Clear guard with dust extraction port for visibility and connectivity to dust extraction system
- Fully compatible with TRA001, MOF001 and JOF001, and includes inserts for appropriate table height winder

## Technical Specification

<b>Product Height</b>	180mm
<b>Product Length</b>	710mm
<b>Product Width</b>	410mm
<b>Product Weight</b>	9.9kg
<b>Dust Extraction</b>	Yes
<b>What's in the box - 01</b>	1 x Router Module Base with low friction Mdot coating
<b>What's in the box - 02</b>	1 x Module fixings and levelling hardware
<b>What's in the box - 03</b>	1 x Aluminium fence with low friction Mdot face
<b>What's in the box - 04</b>	2 x Cruciform planing accessories
<b>What's in the box - 05</b>	2 x Fence micro adjusters
<b>What's in the box - 06</b>	3 x Throat plates
<b>What's in the box - 07</b>	2 x Horizontal featherboards

## Compatible With

<b>TWX7</b>	TWX7 Workcentre
<b>TRA 001</b>	2400W Dual Mode Precision Plunge Router
<b>MOF 001</b>	1400W Dual Mode Precision Plunge Router
<b>JOF 001</b>	1010W Compact Precision Plunge Router

## What's in the Box

- 1 x Router Module Base with low friction Mdot coating
- 1 x Module fixings and levelling hardware
- 1 x Aluminium fence with low friction Mdot face
- 2 x Cruciform planing accessories
- 2 x Fence micro adjusters
- 3 x Throat plates
- 2 x Horizontal featherboards
- 2 x Vertical featherboards
- 2 x Dust extraction ports
- 1 x Starter pin
- 1 x Height winder hole blanking plates
- 2 x Hex spanner (1 x 3mm & 1 x 2mm)
- 3 x Sealing tab (I, II, III)
- 2 x Instruction manual

<b>What's in the box - 08</b>	2 x Vertical featherboards
<b>What's in the box - 09</b>	2 x Dust extraction ports
<b>What's in the box - 10</b>	1 x Starter pin
<b>What's in the box - 11</b>	1 x Height winder hole blanking plates
<b>What's in the box - 12</b>	2 x Hex spanner (1 x 3mm & 1 x 2mm)
<b>What's in the box - 13</b>	3 x Sealing tab (I, II, III)
<b>What's in the box - 14</b>	2 x Instruction manual
