

SUPERJAWS

Portable Clamping System

SJA100E

The iconic SuperJaws can be easily transported right to the job, whether indoors, outdoors or to the workshop floor. The SuperJaws provides fast, hands-free clamping of material up to 955mm, and a massive clamping force of up to 1000kg.

Constructed from tough, powder-coated steel, SuperJaws will hold anything - from car parts and bicycles to timber and tubing. Features include a lock/release switch for fast control of the workpiece and reversible jaws for extrawide clamping capacity.

EXTRA WIDE CLAMPING

Reversible sliding jaws allow extra-wide 955mm clamping width capacity

PROTECTIVE, RELIABLE GRIP

Urethane jaw facings provide protective, slip-resistant grip

HANDS-FREE OPERATION

Foot-operated clamping frees hands for full control of the job
