

# Dust Collection Bucket 23Ltr

## DCA300

Triton's DCA300 Dust Bucket filters and collects wood waste, chips, and fine sawdust, preventing clogging and protecting any shop or household vacuum from damaging dust particles.

Easy to setup and empty. Sturdy plastic construction. The huge 23Ltr capacity drum keeps the workspace clean and clear, which saves frequent emptying time and money on replacing costly vacuum bags.

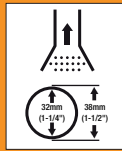

### DUAL EXTRACTION

Two extraction ports can be opened individually to collect waste from two separate sources

### DUST EXTRACTION OUTLETS

Fits most products with dust extraction outlets

### USE ANY VACUUM

Protects your shop, vacuum & tools from fine dust

### TECHNICAL PERFORMANCE

Capacity:	23Ltr
Dust Extraction Connections:	2 ports
Hose Inner Dia:	32mm
Primary Construction:	Plastic

32mm inner dia. hose is compatible with most dust-extraction outlets

Built in filter for collecting fine sawdust & preventing vacuum clogging

Dual extraction ports make it easy to collect waste from two separate sources simultaneously

23Ltr capacity drum for collecting wood waste, keeping workspaces clean & clear

Sturdy plastic construction for easy setup & emptying

Dimensions (L x W x H):	310 x 310 x 480mm
Weight	1.6kg

"By placing it between the dust/chip source and the vacuum, it removes all strain and pressure from the vacuum itself. As a result, my vacuum now does not clog up every five minutes and hardly ever needs emptying...Superb!"

**Daisywoodcraft**

### WHAT'S IN THE BOX

1 x Dust Collection Bucket 23Ltr
1 x Short Hose
2 x Dust Bucket Attachments
1 x Vacuum Attachment
1 x Long Hose
1 x Dust Source Attachment
1 x Instruction Manual
