

1100W SURFACE PLANER 152MM (6")

TSPL152

Preparing timber for woodworking projects can be time consuming, but with Triton's TSPL152 Surface Planer, prepping will be exponentially easier and will save time.

Bows, cups and twists are no problem for the TSPL152, as they can be easily planed out of the workpiece, resulting in smooth, precise, square edges and faces ready for the thicknesser or for jointing. The required angle for jointing can be precisely achieved by guiding the workpiece against the tilting fence at angles from 45 - 135°.

FAST STOCK REMOVAL

Dual blade cutting block delivers 16,000 cuts per minute

MESSY WORK, CLEAN WORKSHOP

Wide dust extraction port with outer dia 62mm / inner dia 58mm for a cleaner, safer workspace

SAFER PLANING

Adjustable blade guard reduces chance of kickback and increases operator safety

TECHNICAL PERFORMANCE

No Load Speed:	8000rpm
Cuts per Minute:	16,000 cpm
Max Planing Depth:	3.2mm
Max Planing Width:	152.4mm
Fence Angle:	45-135°
Table Size:	770 x 260mm

Blade guard drum increases operator safety

Dual-bladed drum with quality HSS reversible blades

Dust extraction port for a safer, cleaner workspace - Outer Dia 62mm / Inner Dia 58mm

Extruded aluminium fence tilts 45 - 135° for versatile and accurate planing

Large infeed and outfeed tables provide support for longer workpieces

Adjustable cutting depth to a maximum of 3.2mm in a single pass

Bench mounting holes allow the base to be securely fixed in a workshop

Push stick & push blocks included

Dimensions (L x W x H):	660 x 410 x 900mm
Weight	24.1kg

"I'm very happy, the workmanship is good, it produces a great smooth finish, is light enough to be able to move yet sturdy enough not to move when in use"

Padster

"I've been looking for a small surface planer to compliment my Triton thicknesser. Its perfect, the fence and bed were spot on straight out of the box. It is reasonably quiet and the dust extraction ok. Very pleased"

Julian Myrans

WHAT'S IN THE BOX

- 1 x TSPL152 Surface Planer
- 2 x Handles
- 1 x Blade Guard and Arm
- 2 x Push Blocks
- 1 x Push Stick
- 1 x Guide Fence and attachment kit
- 1 x Instruction Manual
