

750W Unlimited Rebate Planer 82mm

TRPUL

The TRPUL's patented triple-blade drum delivers 50% more cuts than a conventional two-blade planer, achieving an impressive 46,500 cuts per minute for fast material removal and a superior finish to every project.

Traditionally the rebate depth for any planer is restricted by body design, however the TRPUL is designed with the blade drum positioned to the outermost edge, allowing unrestricted depth rebates right to the edge of the workpiece.

HUGE 46,500CPM

Patented triple-blade drum achieves 46,500 cuts per minute

ACCURATE MATERIAL REMOVAL

17-position depth control for precise material removal

UNLIMITED REBATE DEPTH

Retractable blade drum design allows unlimited rebate planing

TECHNICAL PERFORMANCE
