

750W Pendulum Action Jigsaw

TJS001

Powerful 750W motor with 3-stage pendulum action provides incredible cutting performance. Dual axis grips allow the tool to be held with both vertical pressure and horizontal direction control. Constant speed under load for optimised motor control even under high load. Presetable 800-3000spm variable speed. Tool-free quick release blade change and bevel adjustment (0° to 45° L/R).

Cutting capacity wood 110mm, steel 10mm and aluminium 25mm. Includes 3 x high performance blades, base cover, parallel guide, Triton track adaptor and soft case.

OPTIMISED CUTTING

4-position mode selector with 3 pendulum modes

PERFECT RESULTS

Variable speed & constant speed under load motor control

SAFETY & ACCURACY

Dual axis grips for vertical pressure & horizontal direction control

TECHNICAL PERFORMANCE

Angle Adjustment Range:	0° - 45°, left & right
Max Cutting Capacity:	Wood 110mm, Steel 10mm
No Load Speed:	800-2900spm
Blade Type:	T-shank
Stroke Length:	26mm

Constant speed under load maintains a stable cut rate with improved results

Dual axis grips & balanced body design keep the tool on the workpiece, & move with improved stability

Non-trigger variable speed control & sliding on/off switch with lock-on for easy pre-setting of speed without having to maintain trigger pressure in use

4-position mode selector with 3-stage pendulum action for optimised, fast cutting & reduced wear

Tool-free, quick-release blade change with T-shank bayonet mounting for fast blade changes & compatibility with a wide range of blades

Dimensions (L x W x H):	215 x 340 x 85mm
Weight	3.5kg

"Nice to use, cuts perfectly. I like the fact you can use both hands to guide the saw. Good sturdy flat base and powerful motor. Excellent value for money."

Ian Heggie

WHAT'S IN THE BOX

1 x TJS001 Pendulum Action Jigsaw
2 x Wood Blade
1 x Metal Blade
1 x Track Adaptor
1 x Dust Port Adaptor
1 x Base Cover
1 x Parallel Guide
1 x Parallel Guide Knob
1 x Soft Bag
1 x Instruction Manual
