

1400W Plunge Track Saw 165mm

TTS1400

The TTS1400 Plunge Track Saw is a highly versatile, feature-packed tool with easy mode selection, fast set-up and advanced safety features.

The mode selector allows quick change between free plunge, scribe or blade change, and cutting width indicators show the exact point at which the blade plunges into the workpiece.

For straight, clean, accurate cuts through any type of wood, Triton's TTS1400 Plunge Track Saw delivers a professional result every time.

PERFECT FOR VENEERS

Scribe mode eliminates tear-out when cutting delicate surfaces

QUICK MODE CHANGE

Easy-access dial to switch between full plunge, scribe & blade change modes

SAFER CUTTING

Features track-alignment cams, bevel track-lock, & anti-kickback technology

TECHNICAL PERFORMANCE

No Load Speed:	2000 – 5000min ⁻¹
Blade:	165 x 2.2 x 20mm 60TCT
Max Cut Depth 90°:	53mm with track 57mm without track
Max Cut Depth 45°:	38mm with track 42mm without track
Bevel Range:	0° - 48°

Efficient dust extraction with universal vacuum system adaptor & 360° outlet

Mode selector for quick change between free plunge, scribe, & blade change modes

Variable speed soft start & constant speed electronics optimised for required cutting conditions

Dual alignment cams fine tune the fit between the saw & track for exact cuts

Precision bevel cut adjustment of bevel angle from 0 – 48°

Anti-kickback safety feature prevents the saw from jolting when performing plunge cuts

Dimensions (L x W x H):	380 x 235 x 250mm
Weight	5.4kg

"After reading good reviews of this track saw, I decided to purchase one, and I wasn't disappointed. The saw gives a nice cut on veneer plywood, especially when using the scoring cut feature before making the through cut... For the money, this saw is excellent value."

Jim Gott

WHAT'S IN THE BOX

1 x TTS1400 1400W Plunge Track Saw
1 x Blade 165mm
1 x Pair Carbon Brushes
1 x Dust Port Direction Adaptor 35mm
1 x Instruction Manual
