

1800W Triple Blade Planer

TPL180B

Triton's TPL180B Triple Blade Planer is a heavy-duty evolution of its predecessor, the TPL180.

The TPL180B's motor has been boosted to 1800W for upgraded planing power and durability; soft-start has been added to improve user comfort and safety; and the dust-chip extraction diameter has been increased to 52mm for a greater volume of debris removal.

HUGE 45,000CPM

Patented triple-blade drum achieves 45,000 cuts per minute

ULTRA-WIDE PLANING

Class-leading 180mm width cutting capacity

TOTAL PLANING CONTROL

10-position stepped depth control dial for planing 0 – 2mm

TECHNICAL PERFORMANCE

No Load Speed:	15,000min ⁻¹
Cuts per Minute:	45,000cpm
Plane Width:	180mm
Plane Depth:	0 – 2mm
Soft Start:	Yes

10-position depth control dial sets the cut depth from 0 – 2mm

Adjustable bail handle for additional control & safety

Powerful 1800W motor for heavy duty planing of the toughest wood surfaces

180mm planing width for maximum productivity

3-blade drum design for faster, smoother cuts & a superior finish

Fully cast base ensures flatness & increases accuracy of cut

Dimensions (L x W x H):	525 x 275 x 170mm
Weight	8.5kg

"Bought this to plane rough sawn green oak. Very quickly smooths 6x6 timber, lovely finish, no need to sand. Take care this machine can shift a lot of wood!"

Christopher C

WHAT'S IN THE BOX

1 x TPL180B 1800W Triple Blade Planer
3 x HSS Blades (pre-fitted)
1 x Dust Port Adaptor
1 x Parallel Fence
2 x Parallel Fence Knobs
1 x Blade Spanner
1 x Instruction Manual
